Introduction

The Cleveland Metropolitan School District (CMSD) is a portfolio school district, committed to the goal of ensuring that all students in Cleveland have the opportunity to attend a high-quality public school. Integral to the portfolio strategy is an understanding of and support for the valuable role public charter schools (referred to as Community Schools in Ohio law) can play in educating students. CMSD is committed to helping support and expand high-quality charter schools. There are three distinct ways in which CMSD works with charters—as a sponsor, as a partner, and through the District/Charter Compact. A brief description of these relationships is provided below; more information is at <http://ClevelandMetroSchools.org/Charters>.

How CMSD works with public charter schools:

1) As a Charter School Sponsor

CMSD sponsored eight public charter schools during the 2021-22 year. A summary of their academic, organizational, and financial performance is detailed in this report. CMSD most recently revised its performance standards for the 2021-22 year.

2) As a Charter School Partner

The Cleveland Plan, signed into law in 2012, created a unique way that charter schools and CMSD could work together more collaboratively. Known as partnership, and defined in Ohio law in Section 3311.86 of the Revised Code, this relationship allows CMSD to share a portion of the proceeds of the local education levy approved by Cleveland voters in 2012 and renewed in 2016 and 2020. All CMSD-sponsored schools are partners. Additionally, charters not sponsored by CMSD can apply for partnership. In 2021-22, CMSD partnered with 16 charters, which included our eight sponsored schools along with Cleveland College Preparatory School, Hope Academy Northwest Campus, Horizon Science Academy Cleveland, The Intergenerational School, Menlo Park Academy, Northeast Ohio College Preparatory School, Stepstone Academy, and Village Preparatory School Woodland Hills.

3) Through the Cleveland Education Compact

The Bill and Melinda B. Gates Foundation announced a District-Charter Collaboration Compact initiative in December 2010 to encourage and support collaboration in major metropolitan areas across the country. Since then, more than a dozen cities have signed Compact agreements detailing the ways in which districts and charters would work together for the benefit of all children in the city. Cleveland was awarded a district/charter planning grant in 2014 and finalized its district-charter Compact agreement in December 2015. The Compact was particularly active through 2020, with subcommittees comprised of district and charter staff working in areas including policy, enrollment, and special education. Members are currently discussing how to best use the Compact as a vehicle for district/charter collaboration.

Description of Performance Standards

Ohio law requires sponsors to submit an annual report evaluating and summarizing the compliance of each school they sponsor in the areas of academic performance, fiscal performance, organization and operation, and legal compliance. CMSD sponsored eight schools during the 2021-22 year. For academic, fiscal, and organizational and operational performance, sponsors are to identify whether a school met, exceeded, or did not meet the expected performance level. For legal compliance, sponsors must identify whether the category was met or not met.

CMSD defines performance expectations for each sponsored school in its charter contract. Descriptions of CMSD's performance expectations for each category, and methodology, appear in the appendices to this report. Appendix A contains the academic performance expectations. Appendix B contains the financial performance expectations. Appendix C contains both the organizational and operational expectations and the expectations for legal compliance. Please note that CMSD uses audited financial information as part of both the financial and organizational and operational categories.

All CMSD-sponsored schools adhere to the same academic, financial, and organizational performance expectations.

Please note that because CMSD's performance frameworks do not directly correspond to the requirements of ODE's annual report, modifications have been made and are described below. For example, CMSD often uses four categories (exceeds, meets, does not meet, falls far below) to assess performance in an indicator, whereas ODE uses three categories. Also, CMSD does not produce an overall rating for each category. CMSD considers each indicator but may assign more weight to certain indicators. Additionally, for the purposes of this report, CMSD has extracted the indicator for legal compliance from its organizational framework and assigned each school's rating in that area to the overall legal compliance category. CMSD also uses certain information in a variety of frameworks. For example, audit reports are used for financial reviews but are also considered part of the organizational framework.

An overall summary of each school's rating in each of the four performance areas required by ODE appears on the next page, along with a description of how CMSD defines the four components required. Additional information on indicators and methodology can be found elsewhere in the report and in the appendices.

Appendices

Appendix A–C: Academic, Financial, and Organizational Frameworks

Pursuant to the Sponsorship Contract, the Performance Framework enclosed herein ensures that each community school sponsored by Cleveland Metropolitan School District (CMSD) provides high-quality education to its students. The Framework includes the academic, organizational, and financial standards by which sponsored schools will be evaluated.

The Performance Framework will be used to evaluate whether a community school’s contract should be renewed. It will also be used throughout the life cycle of the school to communicate the school’s performance to its staff, governing authority, sponsor, and other stakeholders. The Performance Framework will provide the basis of the annual report that CMSD must provide annually to the Ohio Department of Education (ODE).

In addition to establishing performance criteria for community schools, the Performance Framework holds CMSD accountable to community schools. CMSD is accountable for implementing a rigorous and fair oversight process that respects the autonomy that is vital to community school success.

It is this *mutual obligation* that drives the CMSD Performance Framework—a collaborative effort with the common objective of providing Ohio students with a high-quality education that prepares them for post-graduation academic and career success.

Finally, the Performance Framework is a living document, subject to continuous review and improvement.

Appendix A

Academic Performance Framework

Pursuant to the Sponsorship Contract, the Performance Framework includes the agreed-upon goals that the governing authority of the community school and CMSD will use to evaluate the performance of the school during the term of this contract.

Guiding Principles of the Academic Performance Framework

1. The Academic Performance Framework meets state expectations for how authorizers/sponsors hold their schools accountable:
 - a. The framework considers all Ohio state report card measures and subgroup performance by including the Overall Rating a school receives.
 - b. The framework includes annual, specific metrics and targets for all applicable state report card measures and considers in particular student performance, student growth, and chronic absenteeism. These measures provide a sense of proficiency, growth, and school culture respectively.
 - c. The Gap Closing measure from the report card is used to set specific proficiency targets for subgroups.
 - d. The framework includes additional measures and targets beyond the Gap Closing target for any applicable subgroups.
 - e. The framework includes mission-specific measures and targets.
 - f. The framework compares the performance of schools to state standards as well as to schools serving similar student populations (based on percent students with disabilities, percent of English language learners, and percent of economically disadvantaged students).
2. The framework recognizes schools that exceed or meet standards according to state cutpoints, while also providing opportunities for schools to demonstrate quality in comparison to peers.
3. The framework provides a dashboard of information that provides information on how schools are performing during the term of their contract.
4. The same framework can be applied to multiple schools allowing for an even playing field.

Framework Indicators and ratings

The table below shows the indicators included in the performance framework and how ratings are assigned for each indicator. Generally, the indicator ratings align with the ratings from the state report card. For some indicators, schools have an additional opportunity to score a rating based on a comparison with peers. In these cases, a school will receive the highest rating corresponding to either their state rating or peer comparison.

Indicator	Overall Report Card Grade	Achievement Component (Performance Index)	Progress Component	Early Literacy Component	Gap Closing Component	ELA and Math Achievement and Growth Indicators	Chronic Absenteeism Indicator
Exceeds	4 or 5 stars	4 or 5 stars OR score in the 75th percentile or higher compared to peer group				45% or more of indicators met	4 or 5 points
Meets	3 stars	3 stars OR score in the 50th to 74.9th percentile compared to peer group				30% to 45.9% of indicators met	3 points
Does Not Meet	2 stars	2 stars OR score in the 25th to 49.9th percentile compared to peer group				10% to 29.9% of indicators met	2 points
Falls far below	1 star	1 star OR score in the 24.9th percentile or lower compared to peer group				Less than 10% of indicators met	1 point

Indicator Descriptions

Overall report card rating: A summary rating of a school’s overall performance on state standards. Including this measure aligns with the state’s method of sponsor ratings and ensures we meet obligations to hold schools accountable for all applicable report card data.

Achievement component (Performance Index): The Achievement rating for schools is based on the Performance Index, one of the most enduring measures on the state report card. We believe that achievement AND growth combined provide a strong indicator of how well a school is serving the academic needs of students.

Progress Component: The Progress rating for schools is based on the statewide growth measure used. Growth measures provide opportunities for all schools to demonstrate success, even with a student population that begins as low achieving. We believe that achievement AND growth combined provide a strong indicator of how well a school is serving the academic needs of students.

Early Literacy Component: The Early Literacy component combines multiple measures related to the preparedness of students in grades K-3 to be productive readers by the time they enter fourth grade. These measures consider both promotion/proficiency of third grade students and improvements made in literacy for off track students.

Gap Closing Component: The Gap Closing component evaluates whether schools are closing/meeting expected performance thresholds for student subgroups across multiple measures. Monitoring this data ensures that schools are providing equitable learning opportunities that meet the needs of ALL students. It also aligns with a requirement that we set targets and monitor performance for student subgroups.

ELA and Math Achievement and Growth Indicators: These indicators from the Gap Closing component evaluate how well a school does in meeting the needs of individual student subgroups in ELA and Math. We include the measure to emphasize the need to meet achievement and growth targets for all subgroups of students. Including these types of measures is also a component of how we are evaluated as a sponsor.

Chronic Absenteeism Indicator: The Chronic Absenteeism indicator is a specific measure found within the Gap Closing component. We place emphasis on this measure as a mission specific metric that reflects our shared belief that students cannot succeed in school if they do not consistently attend school.

Peer group calculations

For each school, we create a matched peer group of other demographically similar charter schools. The purpose of these peer groups is to: 1) inform schools of how they perform relative to their demographic peers and 2) provide schools another opportunity to meet standards in this academic framework. Our belief is that even if a school is not meeting state standards, they should be considered for renewal if they show evidence that they provide a superior educational experience compared to other, similar schools.

To calculate peer groups, we consider three different matching factors: the percentage of students with disabilities, the percentage of English language learners, and the percentage of economically disadvantaged students. These factors were selected to focus grouping on demographic characteristics that are largely outside of a school's control, as opposed to performance characteristics (like attendance, achievement, etc.) which are an output of the school. We are also limited by what data is made available for all schools by the Ohio Department of education.

Peer groups are calculated by finding the standardized distance between a sponsored school and every other charter school in the state of Ohio for the above three factors. The first step is to standardize each of the three factors above. This means setting the mean at a value of zero and values for each of the factors represents the number of standard deviations above or below the mean that a school falls on. Using the three standardized factors, we then calculate the Euclidean distance between all schools. The formula for two schools (p, q) given three input factors (1, 2, 3) is:

$$d(p,q)=\sqrt{(p_1-q_1)^2+(p_2-q_2)^2+(p_3-q_3)^2}$$

All schools with a total distance less than 0.75 units are considered a peer. In practice, this means that schools will be matched to other schools that are slightly different to them across all three factors OR very similar to them on two factors but moderately different on a third factor. The selection of the cut point to use for determining which schools are in a peer group balances the desire to have a large peer group to compare to while also ensuring that schools are not dissimilar to each other.

Appendix B

Financial Performance Framework

The purpose of the CMSD Financial Performance Framework is to measure and evaluate the financial health of all CMSD-sponsored charter schools. The framework is an accountability tool that will be used on a monthly basis, as required by law, to guide discussions between CMSD and CMSD sponsored charter schools. The monthly meetings regarding the framework are not summative, but rather provide the basis for discussions. School ratings on the financial framework will be published annually and submitted to the school's governing authority, parents, and the Ohio Department of Education (ODE), pursuant to section 3301-102-05 of the Ohio Administrative Code.

CMSD will provide monthly written reports with feedback and proactive recommendations, as appropriate, that help the schools achieve greater efficiencies or that result in timely interventions, if needed. Collecting this data is paramount to ensuring that each sponsored school maintains the public trust and fulfills its fiduciary responsibility by maintaining a quality school that spends public funds appropriately and adheres to the laws, rules, and charter requirements as governed by its governing authority.

The measures in this framework are designed to be complementary; no single measure provides a full picture of the financial health of a school. Together, however, the measures provide a comprehensive assessment of the school's financial health and viability based on the school's historic trends, near-term financial situation, and future viability.

It is important to note that if a school receives a "concern" or "below standard" rating, it may or may not be in financial distress. The Financial Performance Framework is meant to flag any areas for further investigation. In the event an area is flagged, CMSD may request additional documentation from a school. The rating may be adjusted if sufficient evidence is provided. An example of additional information taken into consideration for rating purposes could be a long-term strategic partnership that acts as an additional funding source for the school. CMSD will provide schools with a preliminary report before ratings are published so as to give schools time to respond.

To ensure execution of the aforementioned framework and compliance with Ohio Revised Code 33314.023, sponsored schools must agree to participate in a monthly review process to measure and review the financial and enrollment records. CMSD will work to encourage a culture of learning and sharing of best practices to help ensure that all sponsored schools are supported to meet the financial goals outlined in the framework.

CMSD will conduct monthly, quarterly and annual reviews to assess different components of a school's financial wellbeing as detailed below. Should there be any areas of concern, CMSD may request additional information from the schools to demonstrate both short and long-term financial viability.

For a school to be considered for contract renewal, any areas of concern at the time of review must be addressed with sufficient documentation, as determined by CMSD, demonstrating short- and long-term viability.

MONTHLY

Goal

Review how schools are managing their resources to ensure sufficient liquidity.

Documents to review

- Balance Sheet
- Statement of Activities
- Enrollment

Review focuses on three metrics

- Days cash on hand
- Current ratio
- Actual enrollment as compared to budgeted enrollment

Monthly reports

The monthly reports will not be scored. They will consist of topics discussed and high-level findings. However, should there be a concern related to these metrics or other aspects of the school's financial management, we will note this in the monthly report and may ask for additional information.

Monthly Measures

Measure	Metric	Area of Concern
Days Cash on Hand	Total cash divided by (total budgeted expenditures - depreciation)/365	Less than 20 days
Current Ratio	Current assets divided by current liabilities	Less than 1.0
Enrollment	Actual FTEs divided by budgeted FTEs	Below 90%

QUARTERLY

Goal

Review how schools are progressing during the school year against their budget and financial goals and provide schools with targeted feedback.

Documents to review

- All monthly documents
- Quarterly surplus/(deficit)
- Quarterly budget to actual

Review focuses on the monthly metrics as well as the following

- Change in net assets
- Budgeted revenue and expenses as compared to actual revenues and expenses

Quarterly report

The quarterly report will be more comprehensive than the monthly report. It will note areas of financial strength and weakness and will highlight any areas of concern. These reports will include calculations for the metrics and will discuss their implications however, they will not include a score.

As with the monthly report, if there are areas of financial concern raised by the quarterly review, we will note this in the report and may ask for additional information.

Quarterly Measures

Measure	Metric	Area of Concern
Days Cash on Hand	Total cash divided by (total budgeted expenditures - depreciation)/365	Less than 20 days
Current Ratio	Current assets divided by current liabilities	Less than 1.0
Enrollment	Actual FTEs divided by budgeted FTEs	Below 90%
Surplus/(Deficit)	Change in net assets	Unplanned decrease in net assets
Budget Variance	Budgeted revenues and expenses compared to actual revenues and expenses	More than 10% negative variance on major budget lines

ANNUALLY

Goal

- Provide a comprehensive review of the prior year's financial management to provide schools with useful feedback as they progress through the current school year.
- Ohio sponsors are required by law to monitor and evaluate the academic and fiscal performance, along with the organizational, operational and legal compliance, of each school they sponsor and submit a written report of the evaluation results to the parents of students enrolled in the community school and ODE by Nov. 30 each year. CMUSD presents the reports to each governing board at a governing board meeting, requires schools to post the report on their websites, and also posts the report on the CMUSD website.

Documents to review

The year-end review will be scored and will analyze the monthly and quarterly materials and will require the following additional documents:

- Financial statements (balance sheet and income statement) for the entire prior school year as they will be presented to the auditor including all year-end accrual entries;
- Final budget to actual reports with explanations for any major variances; and
- Any written documents that the school wishes CMUSD to consider.

The annual review will focus on the following measures

- Days cash on hand;
- Current ratio;
- Average annual enrollment as compared to the budgeted enrollment;
- Annual surplus/(deficit);
- Annual change in cash position;
- Assessment of net assets (excluding the entries made for government pensions);
- Annual budget variance; and
- Written statement from the school that either states that the school has no debt or that the school has debt; if the school has debt, the written statements should identify whether or not the school has made all loan payments on time, whether or not the school has met all required covenants associated with the debt, and whether or not the debt is in default.

Annual year-end report

The annual report will be in the form of a scorecard and will note any explanations and/or materials provided by the school. There will also be a brief narrative which explains the scoring and describes the school's financial position at year-end.

Additional Reviews

In addition to the monthly, quarterly and annual reports, CMSD will review and report on the following:

- Annual audit which will utilize the same metrics as the year-end annual reviews;
- Annual five-year forecasts submitted in May for the upcoming years; CMSD will focus on whether or not the school used realistic assumptions and will assess the school's projected year-end financial positions for each year; and
- Annual budgets submitted in October for the current year, which will focus on whether or not the school used realistic assumptions and will assess the school's projected year-end financial positions.

These additional reviews will be incorporated into the monthly or quarterly reports.

Appendix C: Organizational Performance Framework

Overview

The purpose of the Organizational Performance Framework is to establish and communicate the compliance-related standards by which CMSD will monitor and evaluate its sponsored schools. The items included in the framework come from Ohio Department of Education (ODE) requirements, contract requirements, and state law. When a number is listed in the Item column, it refers to the number from ODE's School Compliance worksheet, available online and updated annually. CMSD staff consulted with all of its sponsored schools to prioritize and organize these items. Items are weighted according to their importance and are organized into nine categories: Access and Student Rights, Health and Safety, Human Capital, Governance, Admissions, Educational Program, Fiscal, Site Visit, and Other.

CMSD aims to maximize school operational autonomy by articulating the base set of state and federal laws, rules, regulations, and contractual obligations that apply to its sponsored schools.

CMSD will primarily use Epicenter to track compliance. Items not submitted by Epicenter deadlines will result in lost points for those items. Policies/compliance items will be reviewed on due dates.

Some compliance-related requirements cannot be assessed via Epicenter. CMSD will also conduct fall and spring site visits, as required by law. CMSD will provide schools with advance notice of site visits. Please review the CMSD Comprehensive Site Visits: Purpose and Protocol document for detailed information on site visits. The bulk of Epicenter due dates are aligned with the fall and spring site visits. For example, CMSD will review all special education policies in the fall and all admission policies in the spring.

To be considered for contract renewal, a school will be expected to have no outstanding notices of breach or concern. A notice is outstanding if the school has failed to submit a remedial action plan that has been approved by CMSD.
