

Parent and Foster Caregiver Involvement Policy

Intergenerational Schools recognizes the importance of the involvement of parents and foster caregivers in directly affecting the success of their children's or foster children's educational efforts. The school will use the latest scientifically based research to lower the barriers to the parent's participation in school planning, review, and improvement.

The Schools will provide the parents and caregivers of its students with substantial and meaningful opportunities to effectively participate in their children's education to foster their children's achievement; including how and when to assist their children in and support their classroom learning activities, as well as techniques, strategies, and skills to use at home to improve their children's academic success.
